

TrustedCars
FLEX

Changing car ownership forever

Turning dealerships into innovative mobility providers while offering customers a commitment-free, all-inclusive and affordable solution.

Lightpaper June 2018

 Made in Germany

TrustedCars Flex

With TrustedCars Flex you can choose any vehicle you want from the available inventory of participating car dealers within the TrustedCars Flex network, digitally sign for it in the app and you are ready to go. Drive the vehicle you like as long as you want and return it or swap for another vehicle anytime.

Sign up

Quick sign-up process within the App

Choose a vehicle

Choose any vehicle you want. No surprises with our all-inclusive pricing

Sign for it

Sign for it right on your phone

Swap anytime

Freedom to drive the vehicle you want as long as you want

You only make a low weekly payment for as long as you keep the vehicle and you can change vehicles as often as you like. There are no long-term contracts or hidden costs but a fair price with everything included: warranty, roadside assistance, insurance, maintenance, taxes and registration.

All-inclusive

Weekly payment includes insurance, warranty, taxes, maintenance and any other expense that comes with owning a car

Hassle-free

Convenient and risk-free. No uncertainties with purchase, financing, insurance, repair or maintenance

Low weekly payment

Transparent fair pricing with no hidden costs

Flexible

You can return or swap your car anytime you want. No long-term contract

With our unique combination of technology expertise and deep industry relationships we have designed a solution that offers consumers an affordable, all-inclusive and commitment-free way to own a vehicle without ownership responsibilities. In parallel we offer dealerships an additional source of income and access to a new generation of consumers.

It takes dealerships in excess of 100 days on average to sell a vehicle, with average costs of \$15* per day per vehicle. We provide a technological solution for dealers to resolve both sides of the income statement issue: increase in revenue and reduction in holding costs. But we don't just want to solve the problem of car dealers with their increasing lot-time. More importantly we firmly believe that the business model of dealerships will change dramatically. Dealerships will not just continue with their traditional business of one-time vehicle sales (at relatively low margins) but provide new mobility concepts for the new generation of customers.

TrustedCars Flex as a high-tech company will help dealerships move rapidly up the evolution curve, with an easily accessible all-in-one solution.

Token Sale Overview and Timeline

TrustedCars Flex will issue a total of 800,000,000 Tokens on the Ethereum blockchain using a smart contract. 520,000,000 of all Tokens will be sold during the Initial Token Sale. As a closed economy, TrustedCars Flex will not release additional Tokens once the total of 800,000,000 are issued. Unsold Tokens will be burned after the Token Sale. To fully protect the Token economy, Tokens that are not for sale will also be burned proportionally.

ICO Structure / Metrics

Coin Name	TrustedCars Flex
Token Symbol	FLEX
Price per Token	1 FLEX = 0.07 EUR
Tokens Issued	800,000,000 (total number of tokens)

- Tokens for Sale
- Bounty
- Advisors & Legal
- Business Development & Expansion
- Founders, current & future employees (2 year lock)

Budget Allocation

- Technology / Platform Dev
- Marketing
- Expansion & Business Development
- Admin & Operations

Benefits of FLEX within the ecosystem

TrustedCars Flex Tokens will help us to build a system of incentives and rewards to bring more efficiency in this malfunctioning industry.

Right vehicle at the right time, and all with a few taps on your phone, with our digital end-to-end solution. Using Ethereum-based smart contracts through which all funds are secured and transferred, the TrustedCars Flex ecosystem, as a secure and incorruptible infrastructure, will fundamentally transform the consumer experience in vehicle use and ownership.

Our Achievements with TrustedCars

The contribution of TrustedCars to TrustedCars Flex will not only be IT and infrastructure, but also an introduction of the TrustedCars Flex concept to our car dealer partners and share of a TrustedCars talent pool of developers, support, sales and marketing teams.

Established ecosystem of long-lasting and renowned partnerships
e.g. TUV Rheinland, DAT Group, Deutscher Auto Dienst and many more

Large network of dealerships
More than 100 of the largest and most renowned dealerships already trust and work with us

One of the largest Online Shops for used cars worldwide
More than 30,000 listed vehicles in 2017 and currently more than 8,000 vehicles available for purchase

Better than an MVP – our Solution originates from an established business
What we have developed over the last three years will serve as a minimum viable product for TrustedCars Flex to begin operations

Won several awards for our concept
Most recently the prestigious used-car award „Gebrauchtwagen-Award“ for providing the best online customer experience
